Project Personnel

Principal Investigator

- Arnold Vedlitz, Ph.D. – Professor, Department of Public Service and Administration, and Director and Distinguished Research Scholar, Institute for Science, Technology and Public Policy; Bush School of Government and Public Service; Texas A&M University; College Station, Texas

Co- Investigators

- Xinsheng Liu, Ph.D. – Associate Research Scientist, Institute for Science, Technology and Public Policy; Bush School of Government and Public Service; Texas A&M University; College Station, Texas
- Scott Robinson, Ph.D. – Associate Professor, Department of Public Service and Administration, and Research Fellow, Institute for Science, Technology and Public Policy; Bush School of Government and Public Service; Texas A&M University; College Station, Texas
- James W. Stoutenborough, Ph.D. – Postdoctoral Research Associate, Institute for Science, Technology and Public Policy; Bush School of Government and Public Service; Texas A&M University; College Station, Texas

Research Associates

- Liu Shi, M.S.E. – Senior Research Associate, Institute for Science, Technology and Public Policy; Bush School of Government and Public Service; Texas A&M University; College Station, Texas
- Carol Goldsmith, M.P.A. – Research Assistant and Project Manager, Institute for Science, Technology and Public Policy; Bush School of Government and Public Service; Texas A&M University; College Station, Texas

Purpose of the Study

The objective of the Climate Change National Public Survey was to allow researchers to analyze and improve their understanding of factors that influence the knowledge and opinions of the United States public regarding climate change causes, phenomena, and effects.

The survey questionnaire (see Appendix A) aimed to gauge public opinions toward various climate change issues, including individual perceptions and assessments of climate change risks, levels of trust in the ability of government officials and agencies to administer relevant public problems, uses of and confidence in climate information sources, and their policy interests and preferences.

The Climate Change National Public Survey was funded by the Institute for Science, Technology and Public Policy at Texas A&M University.

Survey Methodology and Procedure

Survey Implementation and Completion

The GfK Group conducted the national survey on behalf of the Institute for Science, Technology and Public Policy at Texas A&M University.

The national survey was separated into two stages. The first stage involved an initial screening which tested 10% of the participants expected to take the survey to check on logistics related to the length, duration, question order, and completion rate of the survey. The second stage comprised of the main survey with the remaining respondents eligible for the study. The only requisite to qualify for the main survey was to be an adult aged 18 years or older.

The main survey began on November 13, 2013 and closed on November 26, 2013. The average median time respondents took to complete the survey was 24 minutes. The number of participants sampled to take the main survey was 2,363. Of the 2,363 sampled, 1,321 participants were eligible to complete the main survey and considered valid cases to be included in the final analyses of the study. Accordingly, the completion rate of the main study was 55.9%. Data collected from the survey were coded (see Appendix B) and transformed into a dataset.

Sample Selection and Composition

GfK obtained a survey sample using KnowledgePanel, a probability-based online research panel designed to be representative of the entire U.S. population. Survey participants were selected through randomization using address-based sampling methods, which enable nearly all U.S. households to be sampled.

Household members are mailed letters in advance to inform them of their selection to join KnowledgePanel. Once household members accept their request and are assigned to a study sample, they are sent invitations via email to complete the survey. Households that lack the technological means to complete the survey are provided with personal computers, internet access, and technical support.

This study used the most recent Current Population Survey (CPS) data from June 2013 as the benchmark to determine how samples drawn from the national population should be recruited, adjusted, and distributed proportionally based on demographic characteristics. The demographic characteristics used to create the benchmark distributions consisted of age, gender, race and ethnicity, education, census region, metropolitan area, household income and ownership status, and internet accessibility.

Results of the Climate Change National Public Survey

In this section, we report the results of the national public survey. The total sample size (N) is 1,321, unless stated otherwise. For most of the variables, original values were re-coded. Missing values were not reported.

Q1: How concerned are you about each of the following issues?

Rated as follows:

- 0 = Not at all concerned
- 1 – 3 = Somewhat concerned
- 4 – 6 = Concerned
- 7 – 9 = Very concerned
- 10 = Extremely concerned

Q1_A: Jobs and economic growth. [N = 1,313]

2.1%	Not at all concerned
3.7%	Somewhat concerned
20.3%	Concerned

46.8%	Very concerned
27.1%	Extremely concerned

Q1_B: Immigration. [N = 1,309]

4.1%	Not at all concerned
13.6%	Somewhat concerned
31.8%	Concerned
33.2%	Very concerned
17.3%	Extremely concerned

Q1_C: Pollution. [N = 1,307]

2.9%	Not at all concerned
11.5%	Somewhat concerned
31.4%	Concerned
38.8%	Very concerned
15.4%	Extremely concerned

Q1_D: Government spending/national debt. [N = 1,308]

2.4%	Not at all concerned
4.8%	Somewhat concerned
20.3%	Concerned
39.1%	Very concerned
33.4%	Extremely concerned

Q1_E: Global warming and climate change. [N = 1,311]

9.2%	Not at all concerned
15.1%	Somewhat concerned
28.3%	Concerned
32.4%	Very concerned
15.0%	Extremely concerned

Q1_F: Energy supply. [N = 1,309]

3.5%	Not at all concerned
9.6%	Somewhat concerned
35.4%	Concerned
37.3%	Very concerned
14.2%	Extremely concerned

Q1_G: Health care. [N = 1,308]

2.6%	Not at all concerned
4.6%	Somewhat concerned
19.3%	Concerned

43.6%	Very concerned
29.9%	Extremely concerned

Q1_H: Terrorism and national security. [N = 1,309]

2.8%	Not at all concerned
7.8%	Somewhat concerned
27.1%	Concerned
40.8%	Very concerned
21.5%	Extremely concerned

Q1_I: The environment. [N = 1,304]

4.3%	Not at all concerned
8.7%	Somewhat concerned
29.4%	Concerned
41.4%	Very concerned
16.2%	Extremely concerned

Q2: How much of the time do you think you can trust the government in Washington to do what is right? [N = 1,315]

1.4%	Just about always
14.3%	Most of the time
45.6%	Only some of the time
38.7%	Rarely

Q3: How trustworthy are the following organizations?

Rated as follows:

0	=	Not at all trustworthy
1 – 3	=	Somewhat trustworthy
4 – 6	=	Trustworthy
7 – 9	=	Very trustworthy
10	=	Extremely trustworthy

Q3_A: U.S. Congress. [N = 1,305]

18.4%	Not at all trustworthy
39.2%	Somewhat trustworthy
34.1%	Trustworthy
7.3%	Very trustworthy
1.0%	Extremely trustworthy

Q3_B: U.S. President. [N = 1,303]

23.7%	Not at all trustworthy
22.6%	Somewhat trustworthy
27.2%	Trustworthy
22.7%	Very trustworthy
3.8%	Extremely trustworthy

Q3_C: U.S. Environmental Protection Agency (EPA). [N = 1,301]

11.6%	Not at all trustworthy
24.6%	Somewhat trustworthy
39.7%	Trustworthy
22.2%	Very trustworthy
1.9%	Extremely trustworthy

Q3_D: Federal Emergency Management Agency (FEMA). [N = 1,305]

9.7%	Not at all trustworthy
24.7%	Somewhat trustworthy
43.5%	Trustworthy
20.7%	Very trustworthy
1.4%	Extremely trustworthy

Q3_E: Department of Defense (DOD). [N = 1,307]

7.2%	Not at all trustworthy
19.4%	Somewhat trustworthy
42.6%	Trustworthy
27.8%	Very trustworthy
3.0%	Extremely trustworthy

Q3_F: State government. [N = 1,307]

10.0%	Not at all trustworthy
23.7%	Somewhat trustworthy
43.4%	Trustworthy
21.1%	Very trustworthy
1.8%	Extremely trustworthy

Q3_G: Local government. [N = 1,304]

9.1%	Not at all trustworthy
21.7%	Somewhat trustworthy
43.4%	Trustworthy
24.0%	Very trustworthy
1.8%	Extremely trustworthy

Q4: How informed do you consider yourself to be about global warming and climate change? [N = 1,313]

Rated as follows:

0 = Not at all informed
1 – 3 = Somewhat informed
4 – 6 = Informed
7 – 9 = Well informed
10 = Very well informed

2.8%	Not at all informed
15.0%	Somewhat informed
45.2%	Informed
31.1%	Well informed
5.9%	Very well informed

Q5: Respond True or False to each of the following statements.

Q5_A: The major cause of increased atmospheric concentration of greenhouse gases is human burning of fossil fuels. [N = 1,286]

66.9%	True
33.1%	False

Q5_B: Nitrous oxide is a greenhouse gas. [N = 1,276]

56.4%	True
43.6%	False

Q5_C: Aerosols are airborne particles that are known to contribute to the formation of clouds and precipitation. [N = 1,278]

48.3%	True
51.7%	False

Q5_D: The greenhouse effect refers to gases in the atmosphere that trap heat. [N = 1,290]

89.5%	True
10.5%	False

Q5_E: Climate often changes from year to year. [N = 1,288]

83.8%	True
16.2%	False

Q5_F: Ocean currents carry heat from the equator to the north and south poles.
[N = 1,272]

74.1%	True
25.9%	False

Q5_G: The U.S. emits the largest total amount of carbon dioxide per year.
[N = 1,284]

42.2%	True
57.8%	False

Q5_H: The energy in fossil fuels originally came from the fossilized remains of plants and animals. [N = 1,284]

78.7%	True
21.3%	False

Q5_I: The average yearly temperature of the Earth's surface is currently above 65 degrees Fahrenheit. [N = 1,276]

57.7%	True
42.3%	False

Q5_J: The Earth's climate is warmer now than it has ever been before.
[N = 1,291]

63.5%	True
36.5%	False

Q6: Indicate your level of disagreement or agreement with the following statements about global warming and climate change.

Q6_A: Global warming and climate change are happening or will happen soon.
[N = 1,308]

5.1%	Strongly disagree
7.3%	Disagree
26.2%	Neither disagree nor agree
43.0%	Agree
18.4%	Strongly agree

Q6_B: Global warming is caused mostly by human activities. [N = 1,304]

7.7%	Strongly disagree
12.5%	Disagree
27.1%	Neither disagree nor agree
36.9%	Agree
15.9%	Strongly agree

Q6_C: Global warming may be happening, but it is not caused by human activities. [N = 1,305]

18.9%	Strongly disagree
35.1%	Disagree
30.3%	Neither disagree nor agree
12.4%	Agree
3.3%	Strongly agree

Q6_D: The vast majority of climate scientists are certain that global warming and climate change are happening and caused by human activity. [N = 1,304]

4.6%	Strongly disagree
8.1%	Disagree
29.5%	Neither disagree nor agree
40.8%	Agree
17.0%	Strongly agree

Q7: Presuming that they actually were to occur, how would you rate the consequences of each of the following potential global warming and climate change threats in terms of how **dreadful or terrible the consequences** would be to the American people?

Rated as follows:

- 0 = Not very dreadful or terrible
- 1 – 3 = Slightly dreadful or terrible
- 4 – 6 = Dreadful or terrible
- 7 – 9 = Very dreadful or terrible
- 10 = Highly dreadful or terrible

Q7_A: Sea level rise. [N = 1,300]

2.7%	Not very dreadful or terrible
6.5%	Slightly dreadful or terrible
31.7%	Dreadful or terrible
40.1%	Very dreadful or terrible
19.0%	Highly dreadful or terrible

Q7_B: Increased flooding. [N = 1,296]

2.1%	Not very dreadful or terrible
4.3%	Slightly dreadful or terrible
25.2%	Dreadful or terrible
49.4%	Very dreadful or terrible
19.0%	Highly dreadful or terrible

Q7_C: Increased drought. [N = 1,299]

2.0%	Not very dreadful or terrible
4.4%	Slightly dreadful or terrible
24.9%	Dreadful or terrible
47.5%	Very dreadful or terrible
21.2%	Highly dreadful or terrible

Q7_D: Rising temperature/heat waves. [N = 1,296]

2.3%	Not very dreadful or terrible
4.9%	Slightly dreadful or terrible
32.5%	Dreadful or terrible
44.0%	Very dreadful or terrible
16.3%	Highly dreadful or terrible

Q7_E: Increased wildfires. [N = 1,295]

2.2%	Not very dreadful or terrible
3.9%	Slightly dreadful or terrible
28.0%	Dreadful or terrible
45.2%	Very dreadful or terrible
20.7%	Highly dreadful or terrible

Q7_F: Strong storms/hurricanes. [N = 1,291]

2.3%	Not very dreadful or terrible
3.4%	Slightly dreadful or terrible
21.4%	Dreadful or terrible
47.6%	Very dreadful or terrible
25.4%	Highly dreadful or terrible

Q8: How would you describe **the scientists' level of understanding** of the consequences of each of the following potential threats?

Rated as follows:

- 0 = Very low level of understanding
- 1 – 3 = Low level of understanding
- 4 – 6 = Average level of understanding

- 7 – 9 = High level of understanding
 10 = Very high level of understanding

Q8_A: Sea level rise. [N = 1,293]

2.7%	Very low level of understanding
7.5%	Low level of understanding
31.3%	Average level of understanding
41.1%	High level of understanding
17.4%	Very high level of understanding

Q8_B: Increased flooding. [N = 1,288]

2.6%	Very low level of understanding
7.2%	Low level of understanding
32.5%	Average level of understanding
40.7%	High level of understanding
17.0%	Very high level of understanding

Q8_C: Increased drought. [N = 1,290]

2.8%	Very low level of understanding
7.7%	Low level of understanding
32.4%	Average level of understanding
40.4%	High level of understanding
16.7%	Very high level of understanding

Q8_D: Rising temperature/heat waves. [N = 1,289]

2.9%	Very low level of understanding
7.7%	Low level of understanding
31.2%	Average level of understanding
40.7%	High level of understanding
17.5%	Very high level of understanding

Q8_E: Increased wildfires. [N = 1,288]

3.2%	Very low level of understanding
7.4%	Low level of understanding
32.7%	Average level of understanding
39.7%	High level of understanding
17.0%	Very high level of understanding

Q8_F: Strong storms/hurricanes. [N = 1,287]

3.0%	Very low level of understanding
------	---------------------------------

6.9%	Low level of understanding
30.1%	Average level of understanding
41.9%	High level of understanding
18.1%	Very high level of understanding

Q9: How would you describe **the public's level of understanding** of the consequences of each of the following potential threats?

Rated as follows:

- 0 = Very low level of understanding
- 1 – 3 = Low level of understanding
- 4 – 6 = Average level of understanding
- 7 – 9 = High level of understanding
- 10 = Very high level of understanding

Q9_A: Sea level rise. [N = 1,297]

7.6%	Very low level of understanding
31.6%	Low level of understanding
47.8%	Average level of understanding
11.1%	High level of understanding
1.9%	Very high level of understanding

Q9_B: Increased flooding. [N = 1,294]

6.4%	Very low level of understanding
27.9%	Low level of understanding
48.6%	Average level of understanding
14.6%	High level of understanding
2.6%	Very high level of understanding

Q9_C: Increased drought. [N = 1,295]

6.3%	Very low level of understanding
28.6%	Low level of understanding
48.5%	Average level of understanding
13.8%	High level of understanding
2.8%	Very high level of understanding

Q9_D: Rising temperature/heat waves. [1,294]

6.6%	Very low level of understanding
27.9%	Low level of understanding
49.1%	Average level of understanding
13.9%	High level of understanding

2.6% Very high level of understanding

Q9_E: Increased wildfires. [N = 1,289]

6.2% Very low level of understanding
29.4% Low level of understanding
46.8% Average level of understanding
15.0% High level of understanding
2.6% Very high level of understanding

Q9_F: Strong storms/hurricanes. [N = 1,279]

6.4% Very low level of understanding
25.0% Low level of understanding
46.1% Average level of understanding
18.7% High level of understanding
3.8% Very high level of understanding

Q10: If they were to occur, how would you rate **the number of people** who are likely to be affected by each of the following potential threats?

Rated as follows:

0 = Very few people
1 – 3 = A few people
4 – 6 = A reasonable number of people
7 – 9 = A large number of people
10 = A great number of people

Q10_A: Sea level rise. [N = 1,294]

1.8% Very few people
9.2% A few people
30.3% A reasonable number of people
35.4% A large number of people
23.3% A great number of people

Q10_B: Increased flooding. [N = 1,294]

1.6% Very few people
5.7% A few people
30.8% A reasonable number of people
40.7% A large number of people
21.3% A great number of people

Q10_C: Increased drought. [N = 1,288]

1.4%	Very few people
5.4%	A few people
25.8%	A reasonable number of people
42.2%	A large number of people
25.2%	A great number of people

Q10_D: Rising temperature/heat waves. [N = 1,291]

1.9%	Very few people
6.0%	A few people
30.8%	A reasonable number of people
39.3%	A large number of people
22.0%	A great number of people

Q10_E: Increased wildfires. [N = 1,294]

1.7%	Very few people
9.4%	A few people
35.1%	A reasonable number of people
35.9%	A large number of people
17.9%	A great number of people

Q10_F: Strong storms/hurricanes. [N = 1,287]

1.9%	Very few people
5.3%	A few people
26.8%	A reasonable number of people
42.1%	A large number of people
23.9%	A great number of people

Q11: During the next 10 years, how would you rate the **likelihood** that these potential threats would actually occur?

Rated as follows:

- 0 = Very unlikely
- 1 – 3 = Somewhat unlikely
- 4 – 6 = Likely
- 7 – 9 = Very likely
- 10 = Highly likely

Q11_A: Sea level rise. [N = 1,295]

6.0%	Very unlikely
18.2%	Somewhat unlikely

36.0%	Likely
26.5%	Very likely
13.3%	Highly likely

Q11_B: Increased flooding. [N = 1,290]

4.3%	Very unlikely
14.5%	Somewhat unlikely
34.1%	Likely
32.8%	Very likely
14.3%	Highly likely

Q11_C: Increased drought. [N = 1,296]

4.2%	Very unlikely
12.6%	Somewhat unlikely
35.9%	Likely
32.9%	Very likely
14.4%	Highly likely

Q11_D: Rising temperature/heat waves. [N = 1,290]

4.2%	Very unlikely
12.4%	Somewhat unlikely
34.0%	Likely
34.4%	Very likely
15.0%	Highly likely

Q11_E: Increased wildfires. [N = 1,279]

3.9%	Very unlikely
13.1%	Somewhat unlikely
34.1%	Likely
34.0%	Very likely
14.9%	Highly likely

Q11_F: Strong storms/hurricanes. [N = 1,275]

4.2%	Very unlikely
10.2%	Somewhat unlikely
31.2%	Likely
36.3%	Very likely
18.1%	Highly likely

Q12: How would you rate the **level of risk** posed to the American people by the following potential threats?

Rated as follows:

0 = Very low
1 – 3 = Low
4 – 6 = Average
7 – 9 = High
10 = Very high

Q12_A: Sea level rise. [N = 1,293]

4.6%	Very low
14.7%	Low
33.8%	Average
31.2%	High
15.7%	Very high

Q12_B: Increased flooding. [N = 1,289]

3.3%	Very low
11.7%	Low
32.8%	Average
36.2%	High
16.0%	Very high

Q12_C: Increased drought. [N = 1,289]

3.4%	Very low
9.8%	Low
32.9%	Average
37.1%	High
16.8%	Very high

Q12_D: Rising temperature/heat waves. [N = 1,292]

3.9%	Very low
11.3%	Low
34.1%	Average
35.2%	High
15.5%	Very high

Q12_E: Increased wildfires. [N = 1,293]

3.8%	Very low
11.8%	Low
32.9%	Average
36.2%	High

15.3% Very high

Q12_F: Strong storms/hurricanes. [N = 1,293]

3.6% Very low
8.4% Low
29.4% Average
39.6% High
19.0% Very high

Q13: What **level of resources** do you believe the U.S. government should invest to address each of the following potential threats?

Rated as follows:

0 = Very low
1 – 3 = Low
4 – 6 = Adequate
7 – 9 = High
10 = Very high

Q13_A: Sea level rise. [N = 1,289]

7.5% Very low
17.3% Low
35.0% Adequate
27.9% High
12.3% Very high

Q13_B: Increased flooding. [N = 1,288]

5.7% Very low
12.6% Low
36.6% Adequate
32.4% High
12.7% Very high

Q13_C: Increased drought. [N = 1,288]

5.4% Very low
12.5% Low
35.8% Adequate
32.9% High
13.4% Very high

Q13_D: Rising temperature/heat waves. [N = 1,291]

7.5%	Very low
15.4%	Low
36.4%	Adequate
28.9%	High
11.8%	Very high

Q13_E: Increased wildfires. [N = 1,288]

5.5%	Very low
12.8%	Low
36.1%	Adequate
33.0%	High
12.6%	Very high

Q13_F: Strong storms/hurricanes. [N = 1,288]

5.6%	Very low
10.9%	Low
32.3%	Adequate
35.4%	High
15.8%	Very high

Q14: Do you believe that global warming and climate change has increased the frequency of the following events?

Q14_A: Flooding. [N = 1,300]

54.3%	Yes
23.8%	No
21.9%	Unsure

Q14_B: Drought. [N = 1,298]

57.2%	Yes
21.0%	No
21.8%	Unsure

Q14_C: Hurricanes. [N = 1,300]

52.3%	Yes
23.8%	No
23.9%	Unsure

Q14_D: Heat waves. [N = 1,292]

56.4%	Yes
21.8%	No
21.8%	Unsure

Q14_E: Tornados. [N = 1,278]

47.6%	Yes
25.0%	No
27.4%	Unsure

Q15: Have you experienced any of the following events in the past 3 years?

Q15_A: Flooding. [N = 1,234]

22.0%	Yes
78.0%	No

Q15_B: Drought. [N = 1,212]

35.9%	Yes
64.1%	No

Q15_C: Hurricanes. [N = 1,226]

20.9%	Yes
79.1%	No

Q15_D: Heat waves. [N = 1,213]

52.8%	Yes
47.2%	No

Q15_E: Tornados. [N = 1,218]

18.6%	Yes
81.4%	No

Q16: Indicate the level of risk posed by global warming and climate change to the **health** of the following groups.

Rated as follows:

0	=	Very low risk
1 – 3	=	Low risk
4 – 6	=	Average risk
7 – 9	=	High risk

10 = Very high risk

Q16_A: You and your family. [N = 1,296]

10.3%	Very low risk
21.3%	Low risk
39.9%	Average risk
21.7%	High risk
6.8%	Very high risk

Q16_B: Your community. [N = 1,298]

9.0%	Very low risk
19.9%	Low risk
40.2%	Average risk
23.7%	High risk
7.2%	Very high risk

5.5%	Very low risk
9.4%	Low risk
28.6%	Average risk
37.3%	High risk
19.2%	Very high risk

Q18: Suppose your U.S. House Representative will visit your workplace next week to discuss the impact of global warming and climate change on commercial crops, such as cotton, alfalfa, wheat and corn. Your representative will call on audience members to ask what they would do to solve the problem. Given you might be called on, how likely are you to look to the following sources prior to your representative's visit to find a possible solution to this problem?

Rated as follows:

- 0 = Not at all likely
- 1 – 3 = Somewhat likely

- 4 – 6 = Likely
- 7 – 9 = Very likely
- 10 = Extremely likely

Q18_A: Solutions advocated by your state's department of agriculture.
[N = 1,290]

15.0%	Not at all likely

Q19: Indicate your level of disagreement or agreement with the following statements.

Q19_A: I have a moral obligation to reduce my impact on global warming and climate change. [N = 1,300]

5.9%	Strongly disagree
6.2%	Disagree
31.2%	Neither disagree nor agree
42.4%	Agree
14.4%	Strongly agree

Q19_B: I believe my actions have little to no influence on global warming and climate change. [N = 1,299]

10.2%	Strongly disagree
27.3%	Disagree
32.2%	Neither disagree nor agree
21.2%	Agree
9.2%	Strongly agree

Q19_C: I have an obligation to future generations to reduce my impact on global warming and climate change. [N = 1,298]

5.7%	Strongly disagree
5.3%	Disagree
29.0%	Neither disagree nor agree
43.1%	Agree
16.8%	Strongly agree

Q19_D: My actions to reduce the effects of global warming and climate change in my community will encourage others to reduce the effects of global warming through their own actions. [N = 1,294]

8.5%	Strongly disagree
13.8%	Disagree
48.3%	Neither disagree nor agree
24.7%	Agree
4.6%	Strongly agree

Q19_E: I have already taken steps to reduce my contribution to global warming and climate change. [N = 1,293]

5.8%	Strongly disagree
9.7%	Disagree
36.9%	Neither disagree nor agree
39.1%	Agree
8.6%	Strongly agree

Q19_F: If I use less electricity, the power plant produces less electricity. [N = 1,302]

10.6%	Strongly disagree
24.1%	Disagree
35.5%	Neither disagree nor agree
24.3%	Agree
5.5%	Strongly agree

Q20: How important are each of the following aspects in the debates regarding global warming and climate change.

Rated as follows:

0	=	Not at all important
1 – 3	=	Somewhat important
4 – 6	=	Important
7 – 9	=	Very important
10	=	Extremely important

Q20_A: Costs/benefits to U.S. economy. [N = 1,279]

4.7%	Not at all important
6.3%	Somewhat important
34.7%	Important
39.0%	Very important

4.5%	Not at all important
5.8%	Somewhat important
31.0%	Important
39.5%	Very important
19.2%	Extremely important

Q20_H: Scientific certainty/uncertainty about global warming and climate change.
[N = 1,290]

4.3%	Not at all important
7.6%	Somewhat important
35.2%	Important
36.4%	Very important
16.5%	Extremely important

Q21: How much importance should the U.S. government give to each of the following options in developing a new national policy to address global warming and climate change?

Rated as follows:

- 0 = Not at all important
- 1 – 3 = Somewhat important
- 4 – 6 = Important
- 7 – 9 = Very important
- 10 = Extremely important

Q21_A: A new policy requiring the U.S. government to enter international treaties on climate change only when other major developing countries commit to reduction of their emissions that contribute to global warming and climate change. [N = 1,297]

8.6%	Not at all important
12.7%	Somewhat important
38.6%	Important
27.5%	Very important
12.6%	Extremely important

Q21_B: A new policy focusing on climate science research to obtain high-level scientific certainty on global warming and climate change. [N = 1,293]

6.7%	Not at all important
11.2%	Somewhat important
37.7%	Important
30.5%	Very important

13.9% Extremely important

Q21_C: A new policy not only addressing global warming and climate change but also creating more economic incentives for industries and business to grow the economy. [N = 1,294]

7.0% Not at all important
 8.6% Somewhat important
 32.3% Important
 35.4% Very important
 16.7% Extremely important

Q21_D: Do nothing. No new policy is needed now. [N = 1,288]

32.7% Not at all important
 19.5% Somewhat important
 29.9% Important
 9.8% Very important
 8.2% Extremely important

Q22: Mitigation is action to reduce the level of greenhouse gases in the atmosphere that contribute to climate change. **Adaptation** is action to respond to the negative physical, social and economic effects of climate change after the effects of climate change have occurred. Which of these two action strategies do you think is more important for policy makers to do? [N = 1,300]

29.5% Mostly mitigation
 47.5% Mitigation and adaptation equally
 8.8% Mostly adaptation
 14.2% Neither mitigation nor adaptation

Q23: How should government money allocated to mitigation and adaptation be divided? Think of the total amount available as \$100. You can allocate this money any way you want between the two strategies. For example, you can allocate \$1 to Mitigation and \$99 to Adaptation, or \$1 to Adaptation and \$99 to Mitigation, or any combination you favor that sums to \$100.

<i>Amount government should allocate to mitigation (in U.S. dollars)</i>	<i>Frequency of responses (in percentage)</i>
\$0 – 10	8.3%
\$11 – 20	1.2%
\$21 – 30	3.2%
\$31 – 40	4.1%
\$41 – 50	39.2%
\$51 – 60	9.6%

\$61 – 70	8.3%
\$71 – 80	16.4%
\$81 – 90	4.5%
\$91 – 100	5.2%

Average amount allocated to **mitigation**: **\$52.62** [N = 1,244]

<i>Amount government should allocate to adaptation (in U.S. dollars)</i>	<i>Frequency of responses (in percentage)</i>
\$0 – 10	11.7%
\$11 – 20	7.6%
\$21 – 30	15.6%
\$31 – 40	11.0%
\$41 – 50	39.3%
\$51 – 60	4.7%
\$61 – 70	1.9%
\$71 – 80	3.0%
\$81 – 90	1.1%
\$91 – 100	4.1%

Average amount allocated to **adaptation**: **\$47.38** [N = 1,243]

Q24: Indicate how often you use each of the following sources for information about global warming and climate change.

Rated as follows:

- 0 = Never
- 1 – 3 = Sometimes
- 4 – 6 = Regularly
- 7 – 9 = Often
- 10 = Very often

Q24_A: Newspapers. [N = 1,295]

15.9%	Mostly competent
3.0%	Completely competent

Q28_I: Environmental interest groups. [N = 1,270]

13.2%	Not at all competent
19.6%	Somewhat competent
37.4%	Competent
24.9%	Mostly competent
4.9%	Completely competent

Q29: Rate how much each group shares your values related to global warming and climate change policies.

Rated as follows:

- 0 = Does not share your values at all
- 1 – 3 = Somewhat shares your values
- 4 – 6 = Shares your values
- 7 – 9 = Mostly shares your values
- 10 = Shares your values completely

Q29_A: U.S. Environmental Protection Agency (EPA). [N = 1,263]

13.5%	Does not share your values at all
14.8%	Somewhat shares your values
42.8%	Shares your values
23.4%	Mostly shares your values
5.5%	Shares your values completely

Q29_B: National Oceanic and Atmospheric Administration (NOAA). [N = 1,251]

9.4%	Does not share your values at all
12.8%	Somewhat shares your values
39.4%	Shares your values
31.7%	Mostly shares your values
6.7%	Shares your values completely

Q29_C: U.S. Congress. [N = 1,259]

24.5%	Does not share your values at all
32.2%	Somewhat shares your values
35.8%	Shares your values
6.2%	Mostly shares your values
1.4%	Shares your values completely

Q29_D: U.S. President. [N = 1,248]

25.4%	Does not share your values at all
22.3%	Somewhat shares your values
33.5%	Shares your values
15.4%	Mostly shares your values
3.4%	Shares your values completely

Q29_E: Private sector/Industry. [N = 1,251]

14.5%	Does not share your values at all
27.9%	Somewhat shares your values
44.9%	Shares your values
11.1%	Mostly shares your values
1.6%	Shares your values completely

Q29_F: University scientists. [N = 1,247]

10.3%	Does not share your values at all
15.1%	Somewhat shares your values
40.9%	Shares your values
28.1%	Mostly shares your values
5.6%	Shares your values completely

Q29_G: Local government. [N = 1,249]

14.3%	Does not share your values at all
26.8%	Somewhat shares your values
44.4%	Shares your values
12.7%	Mostly shares your values
1.8%	Shares your values completely

Q29_H: State government. [N = 1,251]

15.8%	Does not share your values at all
24.7%	Somewhat shares your values
44.6%	Shares your values
13.2%	Mostly shares your values
1.7%	Shares your values completely

Q29_I: Environmental interest groups. [N = 1,260]

16.5%	Does not share your values at all
18.9%	Somewhat shares your values
35.6%	Shares your values
24.1%	Mostly shares your values
4.9%	Shares your values completely

Q30: Indicate your level of disagreement or agreement with the following statements.

Q30_A: The U.S. Congress as a whole has a clear understanding about the science of global warming and climate change. [N = 1,283]

32.3%	Strongly disagree
31.3%	Disagree
27.9%	Neither disagree nor agree
7.4%	Agree
1.2%	Strongly agree

Q30_B: The U.S. President has a clear understanding about the science of global warming and climate change. [N = 1,287]

28.6%	Strongly disagree
20.0%	Disagree
30.2%	Neither disagree nor agree
16.4%	Agree
4.8%	Strongly agree

Q30_C: The U.S. news media as a whole has a clear understanding about the science of global warming and climate change. [N = 1,280]

22.4%	Strongly disagree
25.2%	Disagree
39.5%	Neither disagree nor agree
10.9%	Agree
2.0%	Strongly agree

Q31: Indicate your level of opposition or support for each of the following specific policy options.

Q31_A: Use market incentives to encourage industries to reduce emissions that contribute to global warming and climate change. [N = 1,272]

4.3%	Strongly oppose
5.0%	Oppose
29.3%	Unsure

43.9%	Support
17.6%	Strongly support

Q31_B: Impose a tax on industry to discourage practices that contribute to global warming and climate change. [N = 1,276]

10.4%	Strongly oppose
11.1%	Oppose
30.6%	Unsure
29.9%	Support
18.0%	Strongly support

Q31_C: As part of an international agreement, commit the U.S. to reducing carbon dioxide and other emissions that contribute to global warming and climate change. [N = 1,275]

7.9%	Strongly oppose
6.0%	Oppose
32.9%	Unsure
35.4%	Support
17.7%	Strongly support

Q31_D: Require automobile companies to build more fuel-efficient vehicles. [N = 1,273]

4.4%	Strongly oppose
5.0%	Oppose
22.9%	Unsure
41.0%	Support
26.7%	Strongly support

Q31_E: Develop renewable energy sources, like hydro power, solar power, and windmills that emit no carbon dioxide. [N = 1,269]

3.0%	Strongly oppose
4.3%	Oppose
20.3%	Unsure
36.0%	Support
36.3%	Strongly support

Q31_F: Increase taxes on fossil fuels (like gasoline) to encourage people/businesses to reduce usage of fossil fuels. [N = 1,276]

20.1%	Strongly oppose
24.3%	Oppose
33.2%	Unsure

14.4%	Support
8.0%	Strongly support

Q31_G: Promote the increased use of nuclear power. [N = 1,270]

10.2%	Strongly oppose
15.0%	Oppose
42.4%	Unsure
22.3%	Support
10.1%	Strongly support

Q31_H: Protect coastal settlements and water supplies from rising sea levels with publicly funded dikes and sea walls. [N = 1,274]

7.3%	Strongly oppose
11.2%	Oppose
39.6%	Unsure
31.2%	Support
10.6%	Strongly support

Q31_I: Build infrastructure (dams, reservoirs, pipelines) to support water demands during a drought. [N = 1,275]

2.0%	Strongly oppose
3.3%	Oppose
31.9%	Unsure
46.5%	Support
16.3%	Strongly support

Q31_J: Develop more drought tolerant strains of commercial crops such as cotton, alfalfa, wheat, and corn. [N = 1,273]

4.2%	Strongly oppose
5.2%	Oppose
35.5%	Unsure
41.2%	Support
13.9%	Strongly support

Q31_K: Provide subsidies for people living in areas of frequent tornado activity to build tornado shelters. [N = 1,274]

8.4%	Strongly oppose
14.2%	Oppose
36.8%	Unsure
31.7%	Support
8.9%	Strongly support

Q31_L: Protect some water resources to preserve wildlife and fishery habitats.
[N = 1,268]

2.2%	Strongly oppose
2.1%	Oppose
21.0%	Unsure
49.0%	Support
25.8%	Strongly support

Q32: Indicate your level of disagreement or agreement with the following statements.

Q32_A: We are approaching the limit of the number of people the earth can support. [N = 1,283]

8.6%	Strongly disagree
17.3%	Disagree
38.9%	Neither disagree nor agree
25.6%	Agree
9.6%	Strongly agree

Q32_B: When humans interfere with nature it often produces disastrous consequences. [N = 1,280]

2.7%	Strongly disagree
7.1%	Disagree
29.2%	Neither disagree nor agree
44.0%	Agree
17.0%	Strongly agree

Q32_C: Plants and animals have as much right as humans to exist. [N = 1,279]

3.4%	Strongly disagree
10.2%	Disagree
24.6%	Neither disagree nor agree
38.2%	Agree
23.5%	Strongly agree

Q32_D: The earth is like a spaceship with very limited room and resources.
[N = 1,278]

6.0%	Strongly disagree
16.1%	Disagree
33.1%	Neither disagree nor agree
31.1%	Agree
13.7%	Strongly agree

Q32_E: The balance of nature is very delicate and easily upset. [N = 1,272]

3.4%	Strongly disagree
10.5%	Disagree
31.7%	Neither disagree nor agree
38.0%	Agree
16.4%	Strongly agree

Q32_F: If things continue on their present course, we will soon experience a major ecological catastrophe. [N = 1,278]

6.7%	Strongly disagree
9.2%	Disagree
38.9%	Neither disagree nor agree
28.9%	Agree
16.3%	Strongly agree

Q32_G: Humans were meant to rule over the rest of nature. [N = 1,280]

15.2%	Strongly disagree
19.4%	Disagree
36.2%	Neither disagree nor agree
19.5%	Agree
9.8%	Strongly agree

Q33: Indicate your level of disagreement or agreement with the following statements.

Q33_A: We should protect endangered species and their habitats, even if that restricts some landowners' use of their property. [N = 1,282]

5.5%	Strongly disagree
13.4%	Disagree
31.9%	Neither disagree nor agree
34.7%	Agree
14.4%	Strongly agree

Q33_B: We should respect landowners' right to develop their property, even if that means some loss of endangered species and their habitats. [N = 1,282]

12.9%	Strongly disagree
31.1%	Disagree
36.0%	Neither disagree nor agree
16.4%	Agree
3.7%	Strongly agree

Q33_C: Protecting endangered species and their habitats also benefits human beings. [N = 1,279]

1.6%	Strongly disagree
4.5%	Disagree
29.6%	Neither disagree nor agree
46.8%	Agree
17.5%	Strongly agree

Q33_D: I support the U.S. Endangered Species Act. [N = 1,279]

3.0%	Strongly disagree
5.1%	Disagree
36.9%	Neither disagree nor agree
37.7%	Agree
17.4%	Strongly agree

Q33_E: Local people should make their own decisions about protecting endangered species in their area. [N = 1,280]

9.8%	Strongly disagree
24.2%	Disagree
37.0%	Neither disagree nor agree
23.4%	Agree
5.6%	Strongly agree

Q33_F: We owe it to our grandchildren to protect endangered species. [N = 1,275]

1.9%	Strongly disagree
3.9%	Disagree
33.6%	Neither disagree nor agree
40.0%	Agree
20.6%	Strongly agree

Q33_G: I trust my local city council more than the federal government when it comes to protecting endangered species. [N = 1,274]

11.1%	Strongly disagree
15.9%	Disagree
48.1%	Neither disagree nor agree
19.7%	Agree
5.2%	Strongly agree

Q34: Are you a member of an environmental interest group? [N = 1,309]

3.6%	Yes
96.4%	No

Demographic Information of Survey Respondents

Survey respondents' key demographic information and other social, economic, and political background information were collected during the survey. In this section, we report the distribution of each of these variables.

Age

Age	Frequency	Percent	Cumulative Percent
18	16	1.21	1.21

Appendix A: Survey Questionnaire of the Climate Change Survey

[RANDOMIZE]

Q1. How concerned are you about each of the following issues?

Not at all Concerned											Extremely Concerned
0	1	2	3	4	5	6	7	8	9	10	

- a) Jobs and economic growth
- b) Immigration
- c) Pollution
- d) Government spending/national debt
- e) Global warming and climate change
- f) Energy supply
- g) Health care
- h) Terrorism and national security
- i) The environment

[SP]

Q2. How much of the time do you think you can trust the government in Washington to do what is right?

- a) Just about always
- b) Most of the time
- c) Only some of the time
- d) Rarely

[Grid, MP down SP Across]

Q3. How trustworthy are the following organizations?

Not at all Trustworthy											Extremely Trustworthy
0	1	2	3	4	5	6	7	8	9	10	

- a) U.S. Congress
- b) U.S. President
- c) U.S. Environmental Protection Agency (EPA)
- d) Federal Emergency Management Agency (FEMA)
- e) Department of Defense (DOD)
- f) State government
- g) Local government

Q4. How informed do you consider yourself to be about global warming and climate change?

Not at all Informed										Very Well Informed
0	1	2	3	4	5	6	7	8	9	10

[RANDOMIZE]

Q5. Respond True or False to each of the following statements.

True	False
-------------	--------------

- a) The major cause of increased atmospheric concentration of greenhouse gases is human burning of fossil fuels.
- b) Nitrous oxide is a greenhouse gas.
- c) Aerosols are airborne particles that are known to contribute to the formation of clouds and precipitation.
- d) The greenhouse effect refers to gases in the atmosphere that trap heat.
- e) Climate often changes from year to year.
- f) Ocean currents carry heat from the equator to the north and south poles.
- g) The U.S. emits the largest total amount of carbon dioxide per year.
- h) The energy in fossil fuels originally came from the fossilized remains of plants and animals.
- i) The average yearly temperature of the Earth's surface is currently above 65 degrees Fahrenheit.
- j) The Earth's climate is warmer now than it has ever been before.

[Grid, MP down SP Across]

Q6. Indicate your level of disagreement or agreement with the following statements about global warming and climate change.

Strongly Disagree	Disagree	Neither Disagree Nor Agree	Agree	Strongly Agree
------------------------------	-----------------	---	--------------	---------------------------

- a) Global warming and climate change are happening or will happen soon.
- b) Global warming is caused mostly by human activities.
- c) Global warming may be happening, but it is not caused by human activities.
- d) The vast majority of climate scientists are certain that global warming and climate change are happening and caused by human activity.

[DISPLAY Q7 AND Q8 ON SAME SCREEN]

[Grid, MP down SP Across]

Q7. Presuming that they actually were to occur, how would you rate the consequences of each of the following potential global warming and climate change threats in terms of how **dreadful or terrible the consequences** would be to the American people?

Not Very Dreadful or Terrible										Highly Dreadful or Terrible
0	1	2	3	4	5	6	7	8	9	10

- a) Sea level rise
- b) Increased flooding
- c) Increased drought
- d) Rising temperature/heat waves
- e) Increased wildfires
- f) Strong storms/hurricanes

[Grid, MP down SP Across]

Q8. How would you describe **the scientists' level of understanding** of the consequences of each of the following potential threats?

Very Low Level of Understanding										Very High Level of Understanding
0	1	2	3	4	5	6	7	8	9	10

- a) Sea level rise
- b) Increased flooding
- c) Increased drought
- d) Rising temperature/heat waves
- e) Increased wildfires
- f) Strong storms/hurricanes

[DISPLAY Q9 AND Q10 ON SAME SCREEN]

[Grid, MP down SP Across]

Q9. How would you describe **the public's level of understanding** of the consequences of each of the following potential threats?

Very Low Level of Understanding										Very High Level of Understanding
0	1	2	3	4	5	6	7	8	9	10

- a) Sea level rise
- b) Increased flooding
- c) Increased drought
- d) Rising temperature/heat waves
- e) Increased wildfires
- f) Strong storms/hurricanes

[Grid, MP down SP Across]

Q10. If they were to occur, how would you rate **the number of people** who are likely to be affected by each of the following potential threats?

Very Few People										A Great Number of People
0	1	2	3	4	5	6	7	8	9	10

- a) Sea level rise
- b) Increased flooding
- c) Increased drought
- d) Rising temperature/heat waves
- e) Increased wildfires
- f) Strong storms/hurricanes

[DISPLAY Q11 AND Q12 ON SAME SCREEN]

[Grid, MP down SP Across]

Q11. During the next 10 years, how would you rate the **likelihood** that these potential threats would actually occur?

Very Unlikely										Highly Likely
0	1	2	3	4	5	6	7	8	9	10

- a) Sea level rise
- b) Increased flooding
- c) Increased drought
- d) Rising temperature/heat waves
- e) Increased wildfires

- f) Strong storms/hurricanes

[Grid, MP down SP Across]

Q12. How would you rate the **level of risk** posed to the American people by the following potential threats?

Very Low										Very High
0	1	2	3	4	5	6	7	8	9	10

- a) Sea level rise
- b) Increased flooding
- c) Increased drought
- d) Rising temperature/heat waves
- e) Increased wildfires
- f) Strong storms/hurricanes

[Grid, MP down SP Across]

Q13. What **level of resources** do you believe the U.S. government should invest to address each of the following potential threats?

Very Low										Very High
0	1	2	3	4	5	6	7	8	9	10

- a) Sea level rise
- b) Increased flooding
- c) Increased drought
- d) Rising temperature/heat waves
- e) Increased wildfires
- f) Strong storms/hurricanes

[DISPLAY Q14 AND Q15 ON SAME SCREEN]

[Grid, MP down SP Across]

Q14. Do you believe that global warming and climate change has increased the frequency of the following events?

Yes	No	Unsure
------------	-----------	---------------

- a) Flooding
- b) Drought
- c) Hurricanes
- d) Heat waves
- e) Tornados

[Grid, MP down SP Across]

Q15. Have you experienced any of the following events in the past 3 years?

Yes	No	Unsure
-----	----	--------

- a) Flooding
- b) Drought
- c) Hurricanes
- d) Heat waves
- e) Tornados

[DISPLAY Q16 AND Q17 ON SAME SCREEN]

[Grid, MP down SP Across]

Q16. Indicate the level of risk posed by global warming and climate change to the **health** of the following groups.

Very Low Risk										Very High Risk
0	1	2	3	4	5	6	7	8	9	10

- a) You and your family
- b) Your community
- c) The U.S.
- d) The world

[Grid, MP down SP Across]

Q17. Indicate the level of risk posed by global warming and climate change to **the economy or financial situation** of the following groups.

Very Low Risk										Very High Risk
0	1	2	3	4	5	6	7	8	9	10

- a) You and your family
- b) Your community
- c) The U.S.
- d) The world

[Grid, MP down SP Across]

Q18. Suppose your U.S. House Representative will visit your workplace next week to discuss the impact of global warming and climate change on commercial crops, such as cotton, alfalfa, wheat and corn. Your representative will call on audience members to ask what they would do to solve the problem. Given you might be called on, how likely are you to look to

the following sources prior to your representative's visit to find a possible solution to this problem?

Not at all Likely										Extremely Likely
0	1	2	3	4	5	6	7	8	9	10

- a) Solutions advocated by your state's department of agriculture
- b) Policies adopted by neighboring states
- c) Policies adopted by states recognized as leaders in agricultural policy
- d) Solutions advocated by university scientists
- e) Solutions advocated by U.S. Department of Agriculture
- f) Solutions advocated by agricultural interest groups
- g) Your understanding of the problem and your ideas on how to solve it

[RANDOMIZE] [Grid, MP down SP Across]

Q19. Indicate your level of disagreement or agreement with the following statements.

Strongly Disagree	Disagree	Neither Disagree Nor Agree	Agree	Strongly Agree
------------------------------	-----------------	---	--------------	---------------------------

- a) I have a moral obligation to reduce my impact on global warming and climate change.
- b) I believe my actions have little to no influence on global warming and climate change.
- c) I have an obligation to future generations to reduce my impact on global warming and climate change.
- d) My actions to reduce the effects of global warming and climate change in my community will encourage others to reduce the effects of global warming through their own actions.
- e) I have already taken steps to reduce my contribution to global warming and climate change.
- f) If I use less electricity, the power plant produces less electricity.

[RANDOMIZE] [Grid, MP down SP Across]

Q20. How important are each of the following aspects in the debates regarding global warming and climate change.

Not at all Important										Extremely Important
0	1	2	3	4	5	6	7	8	9	10

- a) Costs/benefits to U.S. economy
- b) Economic or financial implications to you or your family
- c) Costs/benefits to U.S. industries and companies
- d) U.S. worldwide leadership in international efforts to address global warming and climate change
- e) Other countries' share of responsibility in combating global warming and climate change
- f) Environmental protection and wildlife conservation
- g) Costs/benefits to future generations
- h) Scientific certainty/uncertainty about global warming and climate change

[RANDOMIZE] [Grid, MP down SP Across]

Q21. How much importance should the U.S. government give to each of the following options in developing a new national policy to address global warming and climate change?

Not at all Important											Extremely Important
0	1	2	3	4	5	6	7	8	9	10	

- a) A new policy requiring the U.S. government to enter international treaties on climate change only when other major developing countries commit to reduction of their emissions that contribute to global warming and climate change.
- b) A new policy focusing on climate science research to obtain high-level scientific certainty on global warming and climate change.
- c) A new policy not only addressing global warming and climate change but also creating more economic incentives for industries and business to grow the economy.
- d) Do nothing: no new policy is needed now. **[ANCHOR]**

[SP]

Q22. Mitigation is action to reduce the level of greenhouse gases in the atmosphere that contribute to climate change.

Adaptation is action to respond to the negative physical, social and economic effects of climate change after the effects of climate change have occurred.

Which of these two action strategies do you think is more important for policy makers to do?

- a) Mostly Mitigation
- b) Mitigation and Adaptation equally
- c) Mostly Adaptation
- d) Neither Mitigation nor Adaptation

[Both the boxes should add to 100]

Q23. How should government money allocated to mitigation and adaptation be divided? Think of the total amount available as \$100. You can allocate this money any way you want between the two strategies. For example, you can allocate \$1 to Mitigation and \$99 to Adaptation, or \$1 to Adaptation and \$99 to Mitigation, or any combination you favor that sums to \$100.

[NUMBER BOX] \$_____ Mitigation

[NUMBER BOX] \$_____ Adaptation

[INSERT GRID BREAK AFTER EVERY SIX ITEMS] [GRID, MP DOWN SP ACROSS]

Q24. Indicate how often you use each of the following sources for information about global warming and climate change.

Never										Very Often
0	1	2	3	4	5	6	7	8	9	10

- a) Newspapers
- b) Fox News
- c) CNN
- d) MSNBC
- e) Major Network News (ABC, NBC, CBS)
- f) Online news sources
- g) Talk radio
- h) Private sector industry reports
- i) Scientific research reports
- j) Government agencies
- k) Environmental interest groups

[INSERT GRID BREAK AFTER EVERY SIX ITEMS] [GRID, MP DOWN SP ACROSS]

Q25. Indicate the level of trust you place in the following sources for information they provide on global warming and climate change

Not at all Trustworthy										Extremely Trustworthy
0	1	2	3	4	5	6	7	8	9	10

- a) Newspapers
- b) Fox News
- c) CNN
- d) MSNBC
- e) Major Network News (ABC, NBC, CBS)
- f) Online news sources
- g) Talk radio

- h) Private sector industry reports
- i) Scientific research reports
- j) Government agencies
- k) Environmental interest groups

[SP]

Q26i. For those individuals you talked with about global warming and climate change, were they mostly...

- a) Same political party as you
- b) Different political party than you
- c) Do not know

[GRID, MP DOWN, SP ACROSS] [RANDOMIZE AND RECORD]

Q27. Using the following scale, indicate which group you believe should be responsible for managing global warming and climate change policy.

Not at all Responsible										Completely Responsible
0	1	2	3	4	5	6	7	8	9	10

- a) Federal government
- b) State government
- c) Local government
- d) Private sector/Industry

[Grid, MP down SP Across]

Q28. Rate the competence of each group to make recommendations about global warming and climate change policy.

Not at all Competent										Completely Competent
0	1	2	3	4	5	6	7	8	9	10

- a) U.S. Environmental Protection Agency (EPA)
- b) National Oceanic and Atmospheric Administration (NOAA)
- c) U.S. Congress
- d) U.S. President
- e) Private sector/Industry
- f) University scientists
- g) Local government
- h) State government
- i) Environmental interest groups

[Grid, MP down SP Across]

Q29. Rate how much each group shares your values related to global warming and climate change policies.

Does Not Share Your Values at all										Shares Your Values Completely
0	1	2	3	4	5	6	7	8	9	10

- a) U.S. Environmental Protection Agency (EPA)
- b) National Oceanic and Atmospheric Administration (NOAA)
- c) U.S. Congress
- d) U.S. President
- e) Private sector/Industry
- f) University scientists
- g) Local government
- h) State government
- i) Environmental interest groups

[Grid, MP down SP Across]

Q30. Indicate your level of disagreement or agreement with the following statements.

Strongly Disagree	Disagree	Neither Disagree Nor Agree	Agree	Strongly Agree
--------------------------	-----------------	-----------------------------------	--------------	-----------------------

- a) The U.S. Congress as a whole has a clear understanding about the science of global warming and climate change.
- b) The U.S. President has a clear understanding about the science of global warming and climate change.
- c) The U.S. news media as a whole has a clear understanding about the science of global warming and climate change.

[RANDOMIZE] [Insert Scale Break After 6 Items] [Grid, MP down SP Across]

Q31. Indicate your level of opposition or support for each of the following specific policy options.

Strongly Oppose	Oppose	Unsure	Support	Strongly Support
------------------------	---------------	---------------	----------------	-------------------------

- a) Use market incentives to encourage industries to reduce emissions that contribute to global warming and climate change.
- b) Impose a tax on industry to discourage practices that contribute to global warming and climate change.
- c) As part of an international agreement, commit the U.S. to reducing carbon dioxide and other emissions that contribute to global warming and climate change.
- d) Require automobile companies to build more fuel-efficient vehicles.
- e) Develop renewable energy sources, like hydro power, solar power, and windmills that emit no carbon dioxide.
- f) Increase taxes on fossil fuels (like gasoline) to encourage people/businesses to reduce usage of fossil fuels.
- g) Promote the increased use of nuclear power.
- h) Protect coastal settlements and water supplies from rising sea levels with publicly funded dikes and sea walls.
- i) Build infrastructure (dams, reservoirs, pipelines) to support water demands during a drought.
- j) Develop more drought tolerant strains of commercial crops such as cotton, alfalfa, wheat, and corn.
- k) Provide subsidies for people living in areas of frequent tornado activity to build tornado shelters.
- l) Protect some water resources to preserve wildlife and fishery habitats.

[Grid, MP down SP Across]

Q32. Indicate your level of disagreement or agreement with the following statements.

Strongly Disagree	Disagree	Neither Disagree Nor Agree	Agree	Strongly Agree
------------------------------	-----------------	---	--------------	---------------------------

- a) We are approaching the limit of the number of people the earth can support.
- b) When humans interfere with nature it often produces disastrous consequences.
- c) Plants and animals have as much right as humans to exist.
- d) The earth is like a spaceship with very limited room and resources.
- e) The balance of nature is very delicate and easily upset.
- f) If things continue on their present course, we will soon experience a major ecological catastrophe.
- g) Humans were meant to rule over the rest of nature.

[Grid, MP down SP Across]

Q33. Indicate your level of disagreement or agreement with the following statements.

Strongly Disagree	Disagree	Neither Disagree Nor Agree	Agree	Strongly Agree
------------------------------	-----------------	---	--------------	---------------------------

- a) We should protect endangered species and their habitats, even if that restricts some landowners' use of their property.
- b) We should respect landowners' right to develop their property, even if that means some loss of endangered species and their habitats.
- c) Protecting endangered species and their habitats also benefits human beings.
- d) I support the U.S. Endangered Species Act.
- e) Local people should make their own decisions about protecting endangered species in their area.
- f) We owe it to our grandchildren to protect endangered species.
- g) I trust my local city council more than the federal government when it comes to protecting endangered species.

[SP]

Q34. Are you a member of an environmental interest group?

- 1 Yes
- 0 No

[STANDARD KN CLOSE]

Appendix B: Codebook

This codebook below reports how survey participants' responses to each and every question in the survey questionnaire was recorded into the dataset.

[Jobs and economic growth] How concerned are you about each of the following issues?

	Frequency	Percent	Valid Percent	Cumulative Percent
Valid Refused	8	.6	.6	.6
Not at all Concerned	28	2.1	2.1	2.7
1	7	.5	.5	3.3
2	16	1.2	1.2	4.5
3	26	2.0	2.0	6.4
4	33	2.5	2.5	8.9
5	122	9.2	9.2	18.2
6	110	8.3	8.3	26.5
